On Sunday, August 28, 1983, we are scheduling the migration of the following network lines from the COM-TEN to the AMDAHL 4705 and will be under VTAM (Virtual Telecommunications Access Method) in the host CPU's. This will make available many capabilities we do not currently have.

The following telecommunications lines will be affected by this procedure:

Line 14	Line 32	Line 42	Line 50
Line 15	Line 34	Line 45	Line 51
Line 16	Line 35		Line 52
Line 17	Line 3A		Line 53
Line 19	Line 3B		Line 54
Line 1B	Line 3E		Line 55
Line 1C			Line 57

Lines not named above will continue to run through the COM-TEN and under previous procedures.

Lines that operate under VTAM will receive the message on the terminal "ENTER APPLICATION ID". The Application ID to be entered is the same as before except the "/" should not be entered. For example, "/SY1CICS" is now "SY1CICS", "/SY1COMP" is now "SY1COMP", etc.

Under VTAM, it is not currently possible to be logged on to more than one application at a time. This, however, will change in the near future.

The following differences should be noted after entering the desired Application ID:

CICS

The message "YOU ARE NOW CONNECTED TO CICS VERSION 1.5" will be displayed. Depress the reset and clear keys, then enter the same CICS signon characters you are currently using ("CSSN" or "CSSM"), and continue processing as normal. To logoff, enter "CSSF LOGOFF".

COM-PLETE

The message "ZVT0003—THIS TERMINAL IS CONNECTED TO COM-PLETE." will be displayed. Enter the "*ULOG ON" command with the user ID and continue processing as normal. Logging off has not changed.

TSO

The message "ACF82003 ACF2—ENTER LOGON ID—" will be displayed. Enter your user ID and continue processing as normal. Logging off has not changed.

Please notify you respective users within your agency of these changes. As with all major changes there is a potential for problems. If you are experiencing problems or have questions, please notify the following individuals:

CICS	Jim Brown	533-4290
	Mike Berrett	533-7960
All Others	Val Stanley	533-7959
	Judy Richman	533-5723

If for any reason the migration to the AMDAHL 4705 is cancelled you will be notified.
